

Free first year membership of NVUG

The Bread Factory
1a Broughton Street
London SW8 3QJ

May 2005

Dear Vision User

Because we are convinced you will benefit from National Vision User Group (NVUG) membership when you move to Vision:

We are offering a free first year membership of the NVUG to all new Vision users. Apply to join NVUG via the NVUG website (www.nvug.org) and your free first year will be automatically activated.

We think that being a member of the National Vision User Group is essential. It gives you the opportunity to attend specially organised Roadshows and local meetings around the UK and other numerous advantages:

- Keep up-to-date with Vision developments
- Raise issues directly
- Meet other Users in your area
- Benefit from other special discounts / offers available only to members
- Lets you put forward constructive criticism of or suggestions for Vision
- Meet INPS Account Managers

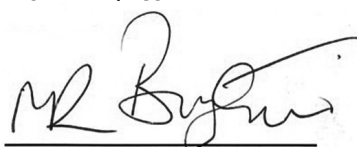

INPS has always had a good relationship with the NVUG, right back to 1984, though the names may have changed over the years. The NVUG continues to be an independent group supporting practices who use Vision.

The NVUG has regular meetings with the senior management of INPS, providing user input, and software developments are discussed with members through a network of virtual electronic software panels. INPS representatives are invited to the NVUG annual national conference and other regional meetings, where we participate in the many workshops, presentations and demonstrations across all areas of GP computing.

We hope you will accept our offer, and that we will meet you at a future NVUG meeting.

Yours sincerely

Max Brighton

Managing Director

Some useful information about the National Vision User Group

Visit the NVUG web site - <http://www.nvug.org> - Only members can access the full site, but the Home page shows you some of the aims and benefits of the NVUG, as well as allowing you to join the User Group.

Contacting the User Group:
